

Race Report

Team EmTek Racing

Killarney National 31 March 2012

Team EmTek Racing made their way down to the fairest Cape for round two of the Wesbank Super series which was held at the historic and well maintained Killarney Circuit, a track which is always supported by throngs of well informed supporters.

Rob, Janine and Simon were really keen to get out on track as the team had unfortunately missed out on a regional race held here two weeks previously and at which most of the other teams had participated at.

Friday morning dawned and the weather was threatening, and with intermittent showers we managed a total of 7 laps before Greg Gildenhuis's BMW lunched its motor and spewed its oil all over the circuit bringing an end to our set up phase of Friday practice.

Saturday Rob qualified 8th and 9th for the two races with Simon 3rd and 4th in class. Janine on the comeback trail in her first event after breaking her ankle at the beginning of the year was making progress only struggling with a little fitness after not being able to train for the last 8 weeks.

The races were an event to behold as the lead changed several times with Rob 6th overall, Simon 3rd in class and Janine a credible finish of 8th, with her achieving her personal best lap around the Killarney circuit in the 2nd race, where everyone went slower.

We now look forward to our next event and testing schedule and also look forward to the improvements we are making as we progress throughout the year.

Thanks once again to our partners and sponsors, without which we would be spectators.
